NOTICE

To further support our students' different learning requirements and promote academic performance, IQAC of Samsi College introduced an exclusive programme designed to evaluate and support both slow and advanced learners.

Since every student is unique in terms of their learning preferences, assets, and shortcomings, we understand how critical it is to provide them individualized support in order to promote their academic development.

The selected group of promising students will be mentored by devoted faculty members who will give them special lessons and encourage them to pursue higher educational opportunities. Special attention will be taken to address their individual concerns as soon as possible, ensuring a positive learning atmosphere. Additionally, training sessions outside of standard institutional teaching hours will be organized to meet their individual requirements and interests.
